

Michael Clayton & Associates

- A** The **existing view** to the north-northeast from South Buckman Springs Road across from Cameron Substation. The landscape is predominantly natural in appearance with grass- and shrub-covered hills and rocky ridges.
- B** This image presents a **visual simulation** of the Modified Route D Alternative as it passes south of Cameron Valley and converges on South Buckman Springs Road. Structure skylining exacerbates structure prominence and contrast.

Modified Route D Alternative
Key Viewpoint 67
South Buckman Springs Road
